

Business Analytics

Practice Overview

ENABLE THE RIGHT DECISIONS WITH THOROUGH DATA ANALYSIS

Generating data is one thing, but being able to interpret that data and quantify your findings requires thorough and accurate data analysis. COMSYS' Business Analytics practice provides the tools and the solutions necessary to properly assess your company's data and formulate statistically sound conclusions.

COMSYS BUSINESS ANALYTICS PRACTICE

Business Analytics is an SAS® Institute Gold Partner and collaborates with SAS® in the development of highly customized analytical business solutions which help our clients maintain a competitive edge. Utilizing sophisticated SAS® statistical tools, Business Analytics' matrix of services and solutions includes:

- Data Analytics and Data Mining
- Forecasting
- Custom Application Development
- SAS® Installation, Migration and Configuration
- Analytical Reporting
- Clinical Data Analysis and Reporting
- Assessments
- Customized Training

COMSYS' Business Analytics practice is capable of addressing your data analysis needs at every level of the organization. Additionally, our services can be delivered onsite or offsite via our Centers of Excellence located throughout North America.

Regardless of the timeframe or scope, Business Analytics' highly trained Statisticians, Programmers and Project Managers possess the knowledge and experience to provide client-centric, cost-effective solutions that translate into enterprise wide value.

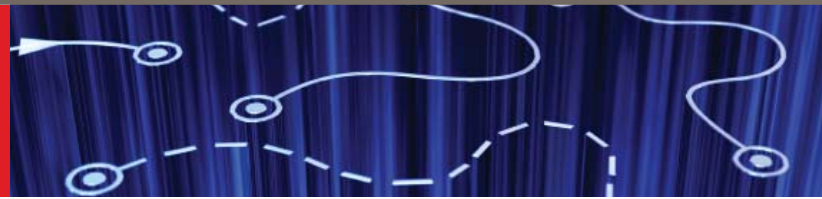

BUSINESS ANALYTICS SOLUTION PROFILES

Today's business environment is driven by new technology and ever-changing business processes. COMSYS' Business Analytics provides managed solutions and services designed to improve overall profitability, competitiveness and organizational efficiency in both local and global environments.

Our Business Analytics Practice provides the right mix of tactical solutions including Application Development, Advanced Analytics, Training & Support, COMSYS Clinical Services and Strategic Planning. Each of these unique capabilities is designed to improve upon your organization's economies of scale as well as optimize its ROIs.

ABOUT COMSYS

COMSYS IT Partners, Inc. (NASDAQ: CITP) is a leading IT services company with 52 offices across the U.S. and offices in Puerto Rico, Canada and the U.K. COMSYS service offerings include contingent and direct hire placement of IT professionals as well as a wide range of technical services and solutions addressing requirements across the enterprise. The COMSYS Process Solutions Group delivers critical management solutions across the resource spectrum from contingent workers to outsourced services.

“Our clients choose us for the quality of our human capital, infrastructure and our intense focus on IT. The technology sector is our sole market, and we are committed to serving it better than anyone else.”

— Larry L. Enterline, CEO of COMSYS

“In today’s globally competitive marketplace, just compiling historical data is not enough. The successful company will mine their data and develop a forward-thinking strategy to look into the future in order to see best and worst-case scenarios. COMSYS’ Business Analytics Practice brings decades of industry-leading expertise to the marketplace to help our clients improve their forecasting, analytics, and reporting capabilities.”

— Erfan Pirbhai, Managing Director, Business Analytics Practice
